**Excerpt from the Pacific Lumber Inspection Bureau Service Fee Policy:**

**3.1.2 Reporting Volumes**

For volume-based dues, facilities shall submit a copy of their shipment report each month to the PLIB office. PLIB will in turn use the monthly shipment volumes to determine the correct dues for each facility.

PLIB Members and Subscribers must provide volume declarations in a timely manner. Correct invoicing for monthly service charges rely on the timely return of the monthly shipment report and it is the responsibility of the member/subscriber to return their shipment report by the due date shown on the shipment report form.

**3.1.2.1 Failure to Report Volumes**

In the event a facility fails to submit a monthly shipment report, PLIB shall estimate the monthly shipment volume using a formula determined by the Board of Directors.

*Note: for programs with volume-based dues the current formula is 1.3 times the highest monthly shipment volume reported over the previous 18 months. The multiplier shall increase to 1.5 for shipment reports more than 3 months delinquent. If the facility has no reportable shipments for the previous 18 months, the dues will be assessed at the rate applicable for active facilities at the minimum volume level.*

Failure to report shipments for more than six months may result in disciplinary action that could include warning, suspension or termination of service. Such matters will be reviewed by the Executive Committee or Board of Directors.

**3.1.2.2 Credit Memos for Missing Shipment Reports**

Credit memos will not be issued for any invoice where the shipment report is more than 30 days past due.
